DETAILED ACTION

Please Note: In an effort to enhance communication with our customers and reduce processing

time, Group 1640 is running a Fax Response Pilot for Written Restriction Requirements. A dedicated

Fax machine is in place to receive your responses. The Fax number is 703-305-3704. A Fax cover

sheet is attached to this Office Action for your convenience. We encourage your participation in this

If you have any questions or suggestions please contact Donald Adams, Ph.D., Pilot program.

Supervisory Patent Examiner at Donald. Adams@uspto.gov or 703-308-0570. Thank you in advance

for allowing us to enhance our customer service. Please limit the use of this dedicated Fax number

to responses to Written Restrictions.

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121: 1.

Claims 1-20, drawn to a composition comprising an admixture of a colloidal metal I.

and a biologically-active factor, a method of treatment with such and a method of

delivery with such, classified in class 514, subclass 2.

Claims 21-26, drawn to a method for the targeted delivery of a biologically-active II.

factor and a method of treatment with such, classified in class 514, subclass 2.

The inventions are distinct, each from the other because of the following reasons:

Inventions I-II are independent and distinct, each from the other, because the methods are

practiced with materially different starting materials for materially different purposes.

Application/Control Number: 08/966,940

Art Unit: 1646

Having shown that these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their recognized divergent subject matter as defined by MPEP § 808.02, the Examiner has prima facie shown a serious burden of search (see MPEP § 803). Therefore, an initial requirement of restriction for examination purposes as indicated is proper.

2. Claims 3, 4, 10, 12, 16, 20, 22-23, 25-26 are generic to a plurality of disclosed patentably distinct species comprising different biologically-active factors. Applicant is required under 35 U.S.C. § 121 to elect a single disclosed species, even though this requirement is traversed.

Claim 7 is generic to a plurality of disclosed patentably distinct adjuvants. Applicant is required under 35 U.S.C. § 121 to elect a single disclosed species in each claim, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. § 103 of the other invention.

3. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any

Application/Control Number: 08/966,940 Page 4

Art Unit: 1646

amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

Advisory Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Prema Mertz whose telephone number is (703) 308-4229. The examiner can normally be reached on Monday-Friday from 8:00AM to 4:30PM (Eastern time).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lila Feisee, can be reached on (703) 308-2731.

Official papers filed by fax should be directed to (703) 308-4227. Faxed draft or informal communications with the examiner should be directed to (703) 308-0294.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-0196.
